谷崎一心 Isshin TANISAKI

1974年、福岡県出身

谷崎一心は、「生命のエネルギーや循環」をテーマに、エネルギーの動きの象徴として、色彩とテクスチャを組み合わせた渦を描き、生命のエネルギーを表現している。谷崎は2000年初頭から、渦の原点でもある細かなドットの集積による自然風景を発表してきた。渦を森羅万象を象る根源として位置づけ、渦による世界をミニマルに表現することで、エネルギーの動きにより生じる私たちの生命、そして日常世界や宇宙の成り立ちについての考察を行っている。

Born in 1974, Fukuoka Prefecture, Japan.

Isshin Tanisaki works with the theme of "life's energy and circulation," painting vortices—combinations of color and texture that symbolize energetic motion—to embody vital force on the canvas. Since the early 2000s he has shown landscapes made from dense fields of fine dots, the very origin of his vortex motif. By positioning the vortex as a primordial form underlying all phenomena, and rendering vortex worlds in a minimalist way, Tanisaki reflects on the energy that generates life itself and on the formation of our everyday world and the cosmos.
